

GLOBAL SUPPLY CHAIN MANAGEMENT (AEC)

2 years (18 months)

4 Semesters

About Program

The Global Supply Chain Management (AEC) is designed for students interested in pursuing an exciting career in Supply Chain Management. This program has been designed as a response to the growing demand for Supply Chain and Logistics professionals by the business community in and around Montreal and globally. Students become specialist in the global fields of product procurement, production, transportation, warehousing and distribution.

The program offers insights into the domains linked to Supply Chain Management, Inventory Management, Warehouse Management, International Procurement, Marketing & Distribution.

As business in Transportation, Logistics and Supply Chain are using Information Technology as an enabler to run their operations smoothly, we have integrated an IT component into the program to ensure that our students have well-rounded skills that would help them get hired and contribute effectively in a dynamic work environment. By pursuing a program in Global Supply Chain Management, you're letting employers know that you're ready to take the next step. Take advantage of Montreal's position as an international transportation and logistics hub to pursue an exciting career.
